## EDUCATION

### Ironhack | Barcelona

Jun - Sept 2019

Intensive 9 week course on Web Development taught in Spanish.

### Saint Louis University

Class of 2018

### Saint Louis University | Madrid

Jan - May 2016

Bachelor of New Media & Digital Design

## EXPERIENCE

### Freelance Web Developer

Jun 2019 - Present

- Freelance for an American High School to revamp their web presence, specifically making the school website more user friendly during the time of COVID-19 and E-Learning
- Produced a Virtual Tour Web Series for prospective students, allowing them to tour the campus online

### Spanish Ministry of Education

Sept - Jun 2019

Language & Cultural Ambassador: North America

- Led 12 sections of English Conversation and 3 sections of Grammar to Spanish-speaking students aged 16-18 at a public high school just North of Madrid Center

### Interbrand

May - Aug 2017

Design Team Intern

- Built the 2018 campaign for The Rubin Museum of Art
- Presented campaign work in a series of 4 client pitches, leading exercises and discussion in feedback sessions
- Produced motion graphics for clients, like Google, Varian, Cars.com, Mint, Intuit, and Mars, Inc.

### Viacom International

May - Aug 2016

Nickelodeon Post-Op Intern

- Managed workflow systems that supported all post production longform media libraries for Nickelodeon
- Inspected digital work-reels before they aired, guaranteeing adherence to the guidelines required for international repurposing, and that proper metadata was always available to programming team

## SKILLS

### Scripting / Programming

ReactJS, NodeJS, Javascript, MongoDB, Express, HTML, CSS, Github, Firebase, Heroku

### Graphics / Web Software

Visual Studio Code, Cinema 4D, Adobe Creative Suite, Sketch, Blender, Maya

## PENDING PROJECT

### Cantar

An open-source application where users study English, or Spanish, by listening to music.

Users can search song lyrics, translate directly, track their learning, and learn vocabulary.
